# **Federal Acquisition Regulation**

(c) Since this contract type provides the contractor no cost control incentive except the ceiling price, the contracting officer should make clear to the contractor during discussion before award that the contractor's management effectiveness and ingenuity will be considered in retroactively redetermining the price.

## 16.206-3 Limitations.

This contract type shall not be used unless—

- (a) The contract is for research and development and the estimated cost is \$100,000 or less;
- (b) The contractor's accounting system is adequate for price redetermination:
- (c) There is reasonable assurance that the price redetermination will take place promptly at the specified time; and
- (d) The head of the contracting activity (or a higher-level official, if required by agency procedures) approves its use in writing.

## 16.206-4 Contract clause.

The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-6, Price Redetermination—Retroactive, in solicitations and contracts when a fixed-price contract is contemplated and the conditions in 16.206-2 and 16.206-3(a) through (d) apply.

# 16.207 Firm-fixed-price, level-of-effort term contracts.

## 16.207-1 Description.

A firm-fixed-price, level-of-effort term contract requires (a) the contractor to provide a specified level of effort, over a stated period of time, on work that can be stated only in general terms and (b) the Government to pay the contractor a fixed dollar amount.

#### 16.207-2 Application.

A firm-fixed-price, level-of-effort term contract is suitable for investigation or study in a specific research and development area. The product of the contract is usually a report showing the results achieved through application of the required level of effort. However, payment is based on the ef-

fort expended rather than on the results achieved.

# 16.207-3 Limitations.

This contract type may be used only when—

- (a) The work required cannot otherwise be clearly defined;
- (b) The required level of effort is identified and agreed upon in advance;
- (c) There is reasonable assurance that the intended result cannot be achieved by expending less than the stipulated effort; and
- (d) The contract price is \$100,000 or less, unless approved by the chief of the contracting office.

## Subpart 16.3—Cost-Reimbursement Contracts

#### 16.301 General.

### 16.301-1 Description.

Cost-reimbursement types of contracts provide for payment of allowable incurred costs, to the extent prescribed in the contract. These contracts establish an estimate of total cost for the purpose of obligating funds and establishing a ceiling that the contractor may not exceed (except at its own risk) without the approval of the contracting officer.

#### 16.301-2 Application.

Cost-reimbursement contracts are suitable for use only when uncertainties involved in contract performance do not permit costs to be estimated with sufficient accuracy to use any type of fixed-price contract.

# 16.301-3 Limitations.

- (a) A cost-reimbursement contract may be used only when—
- (1) The contractor's accounting system is adequate for determining costs applicable to the contract; and
- (2) Appropriate Government surveillance during performance will provide reasonable assurance that efficient methods and effective cost controls are used.
